

SERVICE

In our system, we don't get many faults to fix and so we are in the enviable position of being able to offer fantastic service levels.

01 Technical
We commit to helping you resolve technical issues. Our most quickest method of support is through email.

02 Timely Response
We commit to timely and comprehensive responses. Our support team works 24x7 to ensure that someone's always here to help. Most issues are resolved the same day, often within 60 minutes.

03 Polite & Patient
We commit to being polite, patient and through. We know that if you are contacting support, then you are probably already frustrated with something and we won't add to that frustration.

04 Feedback
We commit to listening to your feedback. We love to hear all the great praise about our systems, but we know we are not perfect, so we always want to hear your feedback.
